

# 1 Arquivo dahdi-channels.conf

O ficheiro *dahdi-channels.conf* é autogenerado polo script *dahdi\_genconf* antes executado, así este ficheiro quedaría do seguinte xeito:

```
; Autogenerated by /usr/sbin/dahdi_genconf on Tue May 19 13:07:48 2009
; If you edit this file and execute /usr/sbin/dahdi_genconf again,
; your manual changes will be LOST.
; Dahdi Channels Configurations (chan_dahdi.conf)
;
; This is not intended to be a complete chan_dahdi.conf. Rather, it is intended
; to be included by chan_dahdi.conf that will include the global settings
;
; Span 1: WCTDM/0 "Wildcard AEX410 Board 1" (MASTER)
;;; line="1 WCTDM/0/0 FXSKS </nowiki>(EC: MG2)"
signalling=fxs_ks
callerid=asreceived
context=from_pstn
channel => 1
```
