

Descarga e instalación de Ubuntu 9.10 Server

Descarga de Ubuntu Server

<http://www.ubuntu.com/getubuntu/download-server>

The screenshot shows the Ubuntu website's download page for the Server Edition. The header includes the Ubuntu logo and navigation links for Ubuntu, Server, Cloud, Support, Community, Partners, and News. A search bar is also present. On the left, a sidebar lists links for Ubuntu Server Edition, Features, Benefits, Download Ubuntu Server, Resources, Technical specifications, Technologies, and Software Catalogue. The main content area is titled 'Download Ubuntu Server Edition' and features a large green 'Begin download' button for 'Ubuntu Server 9.10 (64-bit)'. Below this, a 'Download location' dropdown menu is set to 'Spain'. A section titled 'Alternative download options' is expanded, showing two choices: 'Download Ubuntu 9.10 Server' (the latest version, released in October 2009) and 'Download Ubuntu 8.04 LTS Server' (released in April 2008). To the right, a 'Choose the architecture' section offers '64-bit version' (suitable for server configurations) and '32-bit version' (requiring server-specific hardware). A sidebar on the left promotes 'The Ubuntu Shop' and provides a link to the 'latest news (RSS feed)'.
