## 1.2 Purpose

Plantilla:TI is how you insert colorized text, such as `{{ safesubst:#if:`

```
| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1|   }}|{{ safesubst:#if:1|   }}}]
| [[|{{ safesubst:#if:1|   }}}]
}}
| {{ safesubst:#if:1|   }}
}}
| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1| red   }} |{{ safesubst:#if:1| red   }}}]
| [[ {{ safesubst:#if:1|   }} |{{ safesubst:#if:1| red   }}}]
}}
| {{ safesubst:#if:1| red   }}
}}
```

`}}, {{ safesubst:#if:`

```
| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1|   }}|{{ safesubst:#if:1|   }}}]
| [[|{{ safesubst:#if:1|   }}}]
}}
| {{ safesubst:#if:1|   }}
}}
| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1| orange }} |{{ safesubst:#if:1| orange }}}]
| [[ {{ safesubst:#if:1|   }} |{{ safesubst:#if:1| orange }}}]
}}
| {{ safesubst:#if:1| orange }}
}}
```

`}}, {{ safesubst:#if:`

```
| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1|   }}|{{ safesubst:#if:1|   }}}]
| [[|{{ safesubst:#if:1|   }}}]
}}
| {{ safesubst:#if:1|   }}
}}
| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1| green }} |{{ safesubst:#if:1| green }}}]
| [[ {{ safesubst:#if:1|   }} |{{ safesubst:#if:1| green }}}]
}}
| {{ safesubst:#if:1| green }}
}}
```

`}}, {{ safesubst:#if:`

```

| {{ safesubst:#if: cat
  | {{ safesubst:#ifeq: cat | yes
  | [[ {{ safesubst:#if:1|   }}|{{ safesubst:#if:1|   }}}]
  | {{ safesubst:#if:1|   }}
  }}
| {{ safesubst:#if:1|   }}
}}
| {{ safesubst:#if: cat
  | {{ safesubst:#ifeq: cat | yes
  | [[ {{ safesubst:#if:1| blue }}|{{ safesubst:#if:1| blue }}}]
  | [[ {{ safesubst:#if:1| cat }}|{{ safesubst:#if:1| blue }}}]
  }}
| {{ safesubst:#if:1| blue }}
}}

```

}} and {{ safesubst:#if:

```

| {{ safesubst:#if:
  | {{ safesubst:#ifeq:   | yes
  | [[ {{ safesubst:#if:1|   }}|{{ safesubst:#if:1|   }}}]
  | [[{{ safesubst:#if:1|   }}]]
  }}
| {{ safesubst:#if:1|   }}
}}
| {{ safesubst:#if:
  | {{ safesubst:#ifeq:   | yes
  | [[ {{ safesubst:#if:1| indigo }}|{{ safesubst:#if:1| indigo }}}]
  | [[ {{ safesubst:#if:1|   }}|{{ safesubst:#if:1| indigo }}}]
  }}
| {{ safesubst:#if:1| indigo }}
}}

```

}}, and many others. You can specify its {{ safesubst:#if: background

```

| {{ safesubst:#if:
  | {{ safesubst:#ifeq:   | yes
  | [[ {{ safesubst:#if:1| background }}|{{ safesubst:#if:1| background }}}]
  | [[{{ safesubst:#if:1| background }}]]
  }}
| {{ safesubst:#if:1| background }}
}}
| {{ safesubst:#if:
  | {{ safesubst:#ifeq:   | yes
  | [[ {{ safesubst:#if:1| yellow }}|{{ safesubst:#if:1| yellow }}}]
  | [[ {{ safesubst:#if:1|   }}|{{ safesubst:#if:1| yellow }}}]
  }}
| {{ safesubst:#if:1| yellow }}
}}

```

}} color at the same time.

**Plantilla:TI** is also how you can color wikilinks to something other than blue for when you need to work within background colors. Normally [[ **wikilink** ]] wikilink, but here we use a **Plantilla:TI** with **Plantilla:Para** to create a black wikilink {{ safesubst:#if: wikilink

```

| {{ safesubst:#if: yes
  | {{ safesubst:#ifeq: yes | yes
  | [[ {{ safesubst:#if:1| wikilink }}|{{ safesubst:#if:1| wikilink }}}]
  | {{ safesubst:#if:1| wikilink }}
  }}
| {{ safesubst:#if:1| wikilink }}
}}
| {{ safesubst:#if: yes
  | {{ safesubst:#ifeq: yes | yes
  | [[ {{ safesubst:#if:1| violet }}|{{ safesubst:#if:1| violet }}}]
  | [[ {{ safesubst:#if:1| yes }}|{{ safesubst:#if:1| violet }}}]
  }}
| {{ safesubst:#if:1| violet }}
}}

```

}} You can make any text link to any page using the **Plantilla:Para** parameter.

This template will use the latest [Wikipedia:HTML5](#) recommendations, inserting the span tags Plantilla:Tag and Plantilla:Tag for you, so your page increases its readability and usability in both the wikitext and the rendered page.

## 1.3 Usage

Plantilla:Tif has a one-color and a two-color form:

```
{{font color | color | text }}
{{font color | text color | background color | text }}.
```

Either form has a |link= option, for colorizing (otherwise blue or red) wikilink text.

```
|linkPlantilla:=yes [[text]]
|link=fullpagename [[fullpagename]]
```

You can also name the other fields.

```
{{font color | fg=color | text=text }}
{{font color | fg=text color | bg=background color | text=text }}
```

You can name |fg= or |bg=, which is nice, but... if you name either of them, you must also name |text=, which is a compromise. (See [Help:Template#Parameters](#) for why.)

Spacing is of no concern.

```
.{{font color|tan|green|text with four words}}. .{{ safesubst:#if: text with four words
```

```
| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1| text with four words }}|{{ safesubst:#if:1| text with four words }}]]
| [[|{{ safesubst:#if:1| text with four words }}]]
}}
| {{ safesubst:#if:1| text with four words }}
}}
| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1| green }} |{{ safesubst:#if:1| green }}]]
| [[ {{ safesubst:#if:1| }} |{{ safesubst:#if:1| green }}]]
}}
| {{ safesubst:#if:1| green }}
}}
```

}}.

```
. {{font color|tan|green|text with four words}} . . {{ safesubst:#if: text with four words
```

```
| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1| text with four words }}|{{ safesubst:#if:1| text with four words }}]]
| [[|{{ safesubst:#if:1| text with four words }}]]
}}
| {{ safesubst:#if:1| text with four words }}
}}
| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1| green }} |{{ safesubst:#if:1| green }}]]
| [[ {{ safesubst:#if:1| }} |{{ safesubst:#if:1| green }}]]
}}
| {{ safesubst:#if:1| green }}
}}
```

}} .

```
. {{ font color | tan | green | text with four words }} . . {{ safesubst:#if: text with four words
```

```
| {{ safesubst:#if:
```

$$\}} .$$

## 1.4 Examples

yes

yes

Markup	Renders as								
<pre>{{ font color Plantilla:Safe subst:1 safesubst:#if: default text in yellow background }}</pre>		<pre>[[ {{ safesubst:#if:1  safesubst:#if:1  in yellow background }}</pre>	<pre>[[ {{ safesubst:#if:1  safesubst:#if:1  default text in yellow background }}</pre>	<pre>[[ {{ safesubst:#if:1  safesubst:#if:1  default text in yellow background }}</pre>	<pre>[[ {{ safesubst:#if:1  safesubst:#if:1  default text in yellow background }}</pre>	<pre>[[ {{ safesubst:#if:1  safesubst:#if:1  default text in yellow background }}</pre>	<pre>[[ {{ safesubst:#if:1  safesubst:#if:1  default text in yellow background }}</pre>	<pre>[[ {{ safesubst:#if:1  safesubst:#if:1  default text in yellow background }}</pre>	<pre>[[ {{ safesubst:#if:1  safesubst:#if:1  default text in yellow background }}</pre>

Markup	Renders as								
<pre>{{ font color   white   blue   Wikipedia:Example   link = yes }}</pre>	<pre>{{ safesubst:#if: Wikipedia:Example }}</pre>	<pre>{{ safesubst:#if: yes yes }}</pre>	<pre>[[ {{ safesubst:#if:1  Wikipedia:Example }}</pre>	<pre>[[ {{ safesubst:#if:1  Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>
<pre>{{ font color   white   blue   Wikipedia:Example   link = Wikipedia:Sandbox }}</pre>	<pre>{{ safesubst:#if: Wikipedia:Example }}</pre>	<pre>{{ safesubst:#if: Wikipedia:Sandbox yes }}</pre>	<pre>[[ {{ safesubst:#if:1  Wikipedia:Example }}</pre>	<pre>[[ {{ safesubst:#if:1  Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>
<pre>{{ font color   text = Wikipedia:Example   link = Wikipedia:Sandbox   bg = blue   fg = white }}</pre>	<pre>{{ safesubst:#if: Wikipedia:Example }}</pre>	<pre>{{ safesubst:#if: Wikipedia:Sandbox yes }}</pre>	<pre>[[ {{ safesubst:#if:1  Wikipedia:Example }}</pre>	<pre>[[ {{ safesubst:#if:1  Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>	<pre>Wikipedia:Example }}</pre>

The **Plantilla:Para** parameter is a good way to colorize wikilinks, and it is about as much typing as the **pipe trick**.

Although a wikilink accepts a *font color* (or other template or markup):

```
Plantilla:BigWikipedia:ExamplePlantilla:Big{{font color|white|blue|the Wikipedia:Example
page}}Plantilla:Big
[[Wikipedia:Example | {{ safesubst:#if: the Wikipedia:Example page

| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1| the Wikipedia:Example page }}{{ safesubst:#if:1| the Wikipedia:Example page }}}
| [[{{ safesubst:#if:1| the Wikipedia:Example page }}}
]]
| {{ safesubst:#if:1| the Wikipedia:Example page }}
}}
| {{ safesubst:#if:
| {{ safesubst:#ifeq: | yes
| [[ {{ safesubst:#if:1| blue }} |{{ safesubst:#if:1| blue }}}]
| [[ {{ safesubst:#if:1| }} |{{ safesubst:#if:1| blue }}}]
]]
| {{ safesubst:#if:1| blue }}
}}
}}
```

}}]] (a font-colored link), a *font color* does not accept a wikilink, it creates wikilinks itself with **Plantilla:Para**.

- **Plantilla:OK** {{ font color | green | violet | Wikipedia:Example | link=yes }} {{ safesubst:#if: Wikipedia:Example

```
| {{ safesubst:#if: yes
| {{ safesubst:#ifeq: yes | yes
| [[ {{ safesubst:#if:1| Wikipedia:Example }}|{{ safesubst:#if:1| Wikipedia:Example }}}]
| {{ safesubst:#if:1| Wikipedia:Example }}
}}
| {{ safesubst:#if:1| Wikipedia:Example }}
```

}} (a Plantilla:Para Plantilla:TI)

- }} (Text with [[wikilink brackets]] overrides the designated color)

- }} (Text with [[wikilink brackets]] overrides the designated color) For actual mainspace template usage, here are search links for
